

DAILIES® AquaComfort PLUS® Toric

HOW TO USE THE DAILIES® AquaComfort PLUS® TORIC CONTACT LENS SELECTION GRID

NOTE: There is no need to correct for vertex distance, as the chart will do this for you.

1. Locate the sphere power in the spectacle refraction on the y axis of the grid labeled "Spectacle Sphere Powers."
2. Locate the DAILIES® AquaComfort PLUS® Toric trial contact lens power underneath the spectacle minus cylinder power in the spectacle Rx.
3. For trial contact lenses, select the DAILIES® AquaComfort PLUS® Toric contact lens axis closest to the refractive axis.

Vertex Correction: 12mm

SPECTACLE CYLINDER POWERS (D)
